PROFESSIONAL SUMMARY

Frontend Developer with 2.10 years of experience creating responsive and user-friendly web applications using React.js, JavaScript, HTML, CSS, and Tailwind CSS. Adept at integrating with backend systems including Spring Boot Java API's and MongoDB for seamless data flow. Skilled in API integration, Agile collaboration, and optimizing UI performance across devices.

Technical Skills

Languages & Frameworks / Libraries: JavaScript, React.js, Redux, Node.js, Express.js

Web Technologies: HTML, CSS, Tailwind CSS

Databases: MongoDB, MySQL

Tools & Platforms: Git-hub, Postman, V.S.Code, Agile, API Integration, Spread-sheets

Others: Data Visualization ,Problem Solving, Analytical Thinking, User Experience Design, Basic Cloud Technologies.Data Management.

Professional Experience

Frontend Developer - RFCHH Software PVT.LTD

AUG 2024 - present

Campus-HRMS:

Developed and designed a **Human Resource Management System (HRMS)** using React.js, ensuring a responsive and user-friendly interface designed for educational institutions like schools, colleges, and universities. Integrated the frontend with the backend powered by Spring Boot, enabling seamless data flow and real-time updates. It streamlines HR Processes, including Employee Management, Attendance Tracking, Payroll Processing, and Performance Evaluation, ensuring efficient workforce management.

E-commerce Application:

Developed a modern, responsive e-commerce platform with product listings, shopping cart, and secure checkout. Built reusable UI components using React.js and managed application state efficiently with Redux. Integrated Razorpay payment gateway for seamless, secure transactions.

Gruhapandittuitions (Web Application):

Designed a web application for connecting students and tutors, enabling seamless session scheduling and learning. Using **React.js**, creating user-friendly interfaces for both tutors and students, and with backend services with **Spring Boot**, enabling features such as tutor-student matching, booking sessions, and communication. and responsive interface across all devices.

Social Media Web Application:

Developed a feature-rich social media web application using the MERN stack (MongoDB, Express.js, React.js, Node.js). Created user profiles with comprehensive CRUD functionality, including image posting, post display, and user search.

Developed nested comments for organized discussions and threaded conversations. Employed real-time messaging using Socket.io for live conversations with friends.

Inventory Management system (Web Application):

This project makes it easier for the store/inventory administrator to maintain product records in the proper way.

By using the REACT.JS, JAVASCRIPT, HTML, CSS, MONGODB and NODE.JS we built this web application has context menu.

Implemented admin-only access to data. Provided administrators with the capability to create and delete user accounts. Enabled user data input with administrator access for data management.

EDUCATION

B.TECH (CIVIL ENGINEERING)	7.03 CGPA
<i>D.M.S.S.V.H.College of Engineering - [JNTUK] - 08/2018 - 05/2022</i>	
INTERMEDIATE (MPC)	88%
<i>Sri Chaitanya Junior College - 06/2017 - 07/2018</i>	

CERTIFICATES:

Data Enthusiast Excels in Foundations: Data, Data, Everywhere on Coursera (08/2023): An online course authorized by Google and offered through Coursera.
